Current Teaching Responsibilities and Role in the Entry-Level Program for Academic Year of Site Visit: (in sequence, by term; do **NOT** include courses taught at other institutions here!)

Q3 - DPT 6340 Clinical Neuroscience, Adjunct Faculty Grader and Lab Assistant

Q4 - DPT 6410 Neuromuscular Practice, Adjunct Faculty Grader and Lab Assistant

Q5 - DPT 6512 Management of the Aging Adult, Adjunct Faculty Grader and Lab Assistant

Qualifications Narrative

- Judith M. Moore, PT, DPT, Adjunct Faculty South College Knoxville School of Physical Therapy
- Other credentials: Board Certified by the American Board of Physical Therapy Specialties as a Geriatric Clinical Specialist, Board Certified by the American Hippotherapy Certification Board as a Hippotherapy Clinical Specialist, Certified by the Neurodevelopmental Treatment Association in Neurodevelopmental Treatment Techniques for Adults with Brain Injury and Stroke
- Clinical Doctorate in Physical Therapy (DPT)
- Licensed in the state of Kentucky #007094
- One measure of my effectiveness in teaching is feedback from students on post course evaluations which demonstrates I meet criteria for the program's benchmarks. I have

been requested to return by core faculty in five different courses since 2018. Graduates from the South College DPT program achieve an ultimate 100% pass rate on the NPTE, and I have served as part of the faculty team that contributes to their success in multiple courses.

- DPT 6340 Clinical Neuroscience:
 - Adjunct Faculty Grader and Lab Assistant
 - I have been a full-time practicing clinician for 10 years, with a clinical focus on neurological rehabilitation throughout the life span and across the continuum of care. A majority of my continuing education has a neurological basis. This ensures my knowledge works to be current and applicable to the best practices and contributes to facilitate student's achievement of objectives for the course as content on the NPTE.
 - I currently hold a certification in Neurodevelopmental Treatment Techniques for Adults with Brain Injury and Stroke. I am in the process of earning additional certification through LSVT BIG for treatment of patients with Parkinson's Disease.

- DPT 6410 Neuromuscular Practice:
 - Adjunct Faculty Grader and Lab Assistant
 - I have been a full-time practicing clinician for 10 years, with a clinical focus on neurological rehabilitation throughout the life span and across the continuum of care. A majority of my continuing education has a neurological basis. This ensures my knowledge works to be current and applicable to the best practices and contributes to facilitate student's achievement of objectives for the course as content on the NPTE.
 - I currently hold a certification in Neurodevelopmental Treatment Techniques for Adults with Brain Injury and Stroke. I am in the process of earning additional certification through LSVT BIG for treatment of patients with Parkinson's Disease.

- DPT 6512 Management of the Aging Adult:
 - Adjunct Faculty Grader and Lab Assistant.
 - I have been a full-time practicing clinician for 10 years, with 80% of my patients in the geriatric age group. I have worked with this population across the continuum of care starting in the ICU, progressing them through acute care and inpatient rehabilitation, to outpatient therapy. I have also facilitated community support groups for adult survivors of stroke, which are predominantly geriatric.
 - I am a Board Certified Geriatric Clinical Specialist; Approximately 80% of patients are ages 50 and older at Baptist Health Lexington
 - And I have taken the following courses that support my qualification to teach DPT 6512 Management of the Aging Adult:
 - Aging Gracefully; Informed Choices for Health, Wellness, and Well Being December 2020
 - The Impact of Aging on Functional Mobility and Gait: Introduction January 2021

- The Aging Spine December 2020
- Psychosocial Considerations in the Aging Adult December 2020
- Comprehensive Care Plan for the Older Adult with Osteoporosis December 2020
